“ We didn't see each other often but when we did it was no time had passed she always had a hug for me and never without a smile. She would give you the shirt off her back if you needed it and always would give me good advice. She always asked about my son and always prayed for the best for my family. She will be missed. Always one of the best in my book.

“ She was one of the most important women in my life. She’s been by my side for 28 years. She was my mom2. She took my sister myself and my brother and as her own never once told us we were step kids never treated us any different than her own always there when we needed her for that. I am greatly to have had her in my life for as many years as I did! If you knew her, you probably loved her. She was a Spitfire, but a very loving one!
