“ *Nellie will be missed. I have a lot of great memories of her and Eugene. Sitting around the kitchen table talking about deer hunting, drinking coffee, and of course eating something sweet she just baked. Kathy and Lacey you are in my thoughts and prayers along with the rest of you family.*

“ *Being on six years older than me, we were very close at one time. I lived with her and Gene back in 1960 before I joined the army. They lived in a tiny little one bedroom house that no longer exists. She and Gene were really very good to me. When I returned from the army, they loaned me the money for a down payment on a new Pontiac. While we grew apart in later years, my memories of Nellie are comforting. She was kind, thoughtful and easy to like.*
