“ *The passing of my friend gives me pause to think about all the fun filled days of our youth on Franklin street. We had our own neighborhood football team with the Giggi and Chupp boys that was coached by Tom's older brother Gary. All of our practices were carried out in the Kingsbury back yard. Tom and I had a great childhood together and our trips in the family trailer were also very special. We shared many adventures and held many secrets. Many mischievous both in Cadillac and some in Clio, but such are the adventures of our shared youth. I will miss my friend and always hold our memories close to my heart. God be with you.
